Section – III

3. Detailed Scope of Work

3.1 Objective: NCISM is committed to continuously enriching the quality of ISM education in India. As part of this commitment, we are undertaking a comprehensive revision of the III year professional course curriculum for BAMS, BUMS, and BSMS and PG programs to ensure it aligns with the latest advancements in ASUS systems, industry demands, and global healthcare trends. To navigate this multifaceted revision process effectively, NCISM seeks a robust and user-friendly software solution.

3.2 Desired Functionalities:

- **Comprehensive Curriculum Management:**
  - Store, manage, and update the revised curriculum for all ASU systems, including subject-wise syllabi, learning objectives, teaching-learning methodologies, assessment methods, and reference materials.
  - Enable easy searching, filtering, and organization of curriculum content.

- **Dynamic Resource Repository:**
  - Facilitate seamless entry and sharing, editing, modification and restructuring of the data.

- **Data-Driven Insights and Reports:**
  - Generate comprehensive reports on various aspects of the curriculum, including subject-wise, domain wise, level wise, T/L Methods, and many other variables in the curriculum.
Present data in insightful visualizations and provide tools for deeper exploration and analysis.

- **Secure Collaboration and Feedback Mechanisms:**
  - Enable secure and efficient collaboration among curriculum revision committees, subject experts, and NCISM officials through online document sharing, discussion forums, and feedback mechanisms.
  - Track changes, versions, and discussions to maintain transparency and accountability.

- **User-Centric Design and Access:**
  - Develop an intuitive and user-friendly interface accessible on diverse devices and operating systems.
  - Offer multilingual support (English, Hindi, Sanskrit, Urdu, Arabic and potential expansion to other Indian languages) for diverse users.

### Software Requirements:

- **Cloud-Based:** Accessible from any location with an internet connection.
- **Secure Server Management:** Vendor-managed server hosting for optimal performance, security, and data protection.
- **Multi-User Access:** Secure login credentials for authorized users with role-based permissions.
- **Data Confidentiality and Maintenance:** Implement strict data security measures, encryption, and audit trails. Guarantee data maintenance and availability for five years after implementation, including regular backups and disaster recovery plans.

### Collaboration and Support:

- **Close Partnership:** Our developers will work closely with your team throughout the development process, ensuring the software aligns perfectly with your vision and needs.
- **Pilot Software and Iterative Development:** Developer will provide a pilot version of the software for comprehensive testing and feedback before full implementation. This allows for adjustments and refinements based on your valuable input.
- **Format Flexibility and Ongoing Support:** Developer understands curriculum formats might vary. Our developers will provide ongoing support for implementing changes and adjustments to basic formats within the software.
- **Doctor Training and Support:** Developer will prepare user manual and will offer specialized training programs to equip doctors involved in the revision process with the skills and knowledge to effectively utilize the software.
- **Real-Time Support and Troubleshooting:** Your team will have access to our dedicated support team for real-time assistance and troubleshooting whenever needed, ensuring smooth operation and minimal disruptions.
• **Stream-Specific Customization**: The software will be customizable to accommodate the specific needs of different AUS streams and subjects. Our developers will collaborate with subject experts to tailor functionalities and features to enhance the curriculum management process for each individual discipline.

• **Role Based Functionalities**: The software should have Role Based Access mechanism for Chairman, Co-ordinator, Member, Super admin etc.

### 3.3 Uptime:
The Bidder will ensure an uptime of 99% for the items deployed by them.

### 3.4 Reliability:
The equipment offered should be robust and reliable.

### 3.5 Licenses
User License should be complete in all sense i.e. only Full Usage User License has to be quoted. All licenses shall be of Perpetual Nature only. No time restriction and user restriction licenses shall be entertained.
